Funeral of Rossini.

PARIS, November 22.—After the celebration of a requiem mass and last offices of the dead at the Madeline yesterday, the remains of Rossini were taken to the cemetery of Pere La Chaise. The funeral was rather of a private and domestic character; the procession was not large, nor was the display unusual, but immense throngs of people lined the streets through which the cortege passed, and testified their respect for the great composer by a profound and mournful silence.

Hungary.

PESTH, November 22.—In the preface of the official Red Book, which has just made its appearance here, the maintenance of friendship with Prussia and all Northern and Southern States of Germany is advocated, and the settlement of the Schleswig difficulty is urged.

Discontent in France.

LONDON, November 22.—Advices from Paris state that there is growing discontent in France, consequent on the press seizures. Prosecutions are urged by the Government with unsparing energy.

What if He is?

PARIS, November 22.—The Prince of Wales is at Compeigne.

Affairs in Spain.

PARIS, November 22.—Intelligence from Spain is to the effect that General Prim is charged with delaying the elections, and reorganizing the army with design of a coup d'etat and establishment of an Empire. It is said that handbills are freely circulated, urging his elevation to the throne, and that they emanate from his immediate friends.

King William.

LONDON, November 22.—A dispatch from Berlin states that there is much surprise at the omission to consult the King on the subject of his arbitration upon the Alabama claims.

Count Bismarck has recovered from his illness, and resumes his post this week.

Disloyalty Denounced.

VIENNA, November 22.—The Hungarian official Red Book denounces the disloyalty prevalent with the Danubian Principalities to the Sultan's government, and says they have forfeited their claim to the protection of the great powers.

Banquet to Minister Johnson.

LONDON, November 22.—A banquet was given to Hon. Reverdy Johnson, by the authorities of Brighton, Saturday. George Peabody and George W. Childs, of the Philadelphia *Ledger*, were also guests of the corporation, and many distinguished Englishmen and local celebrities were present. Mr. Johnson's remarks were similar to those of former occasions. The Mayor of Brighton also made a speech, in which he eloquently extolled peace, the American Minister and Mr. Peabody.

Protest.

CONSTANTINOPLE, November 22.—Hon. E. Joy Morris, American Minister, has presented to the Porte an energetic protest against the imprisonment of the two American citizens at Damascus.

Results of the Election.

LONDON, Sunday Evening.—The election returns now in show that the Liberals have at least 150 majority in a full House. It is estimated they will have 120 majority on the amendment, which will be proposed to the Parliamentary address in reply to the Queen's speech. Some people are disposed to think such strength of members will be dangerous to the Liberals, fearing it will tend to produce discord in the party. This apprehension is perhaps imaginary, as nearly all the Liberals who have been elected have pledged themselves to their consituents to sustain Mr. Gladstone, and the fate of the Adullamites who have all come to grief, is a warning to bolters. Two fortunate results are considered to have been secured, viz: The displacement of the Conservatives and the acquisition of power sufficient to exert a decisive pressure on the House of Lords for pushing through measures for the disestablishment of the Irish Church. The aristocratic section of the Whig party is charged with intriguing to have Earl Granville invited by the Queen to form a new ministry, and the Radicals are indignant at the underhanded course. It is anticipated the new House of Commons will be on the whole remarkably practical and business like in character. The exclusion of Mr. Osborne, Mr. Roebuck and other eccentric individuals is a matter of general congratulation, nor is the loss of the Conservative lawyers, including the Attorney General and Solicitor-General, much lamented. Regret is felt that none of the workingmen's candidates, who failed for want of money and organization, will be in the House to represent that new element in the Government. The elections in counties have not all been finished, but they will be completed before the end of this week.

Gaining Ground.

LONDON, November 22, Evening.—Mr. Burlingame and his mission have gained ground daily. His relations with Lord Stanley are intimate and satisfactory.

Concerning Velocipedes.

The first two-wheeled velocipede was made in 1808. It was a failure as far as practicability was concerned, the labor of propelling it, as it was then constructed, overbalanced the pleasure of the rider. It was introduced in Paris where the two-wheeled velocipede is the rage now. Tradition has it that a velocipede was exhibited as early as 1799 in Paris that required two persons to manage it, and which was driven at a wonderful speed. All attempts to bring these inventions into general use failed however. Now velocipedes are common affairs in France. They no longer excite attention or remark, except as their drivers exhibit rare dexterity and ease in their management. The velocipede of to-day and that of 1808 and 1830 are entirely different affairs; one is as neat and light as the other was cumbrous and heavy. No extra strength is required to propel the modern velocipede; all that is required is practice. An account says:

"When one first sees a two wheeled velocipede one naturally supposes that to maintain one's equilibrium upon its narrow back, supported by a still narrower base, is a physical impossibility; but after a little practice according to the following rules laid down by one of the most skillful bicycle operators in France, the feat is found to be exceedingly easy to perform. He says:

"Walk beside your iron horse, leading it as it were, with your hand so as to familiarize yourself with its movements. This will be an affair of only a few minutes. Then commence with it on a slope, and after mounting it let it move forward of its own accord, while you occupy yourself in studying the effects produced by the inclination which you give to the balancing pole or tiller. When you thoroughly understand the action of this, place one foot to the pedal, and follow its movements without assisting them. The difficulty with beginners is to restrain the unnecessary expenditure of muscular force; they ordinarily perform ten times the labor that is requisite. To alight, both feet are raised from the pedals at the same instant, which has the effect of slackening the speed of the machine. The feet are then placed simultaneously on the ground, the tiller still being firmly held by both hands."

In France the speed attained by the veloce under the guidance of an adept, averages from 12 to 13 miles an hour. An amateur is said to have accomplished 88 miles in 24 consecutive hours, in a race with a competitor who made 120 miles in the same time. On the 23d of September, according to the Paris journals, a party of nine veloce riders left Rouen early in the morning, and arrived in Paris, in time for dinner, having made the 82 miles in eight hours.

The demand for the two-wheeled velocipede in this country is already very great and is said to be increasing. Henry Ward Beecher, Charles A. Dana, Mr. Edwards, editor of the *Northwestern Christian Advocate*, Mr. Morris, of the firm of Morris, Tasker & Co., and a number of other well-known gentlemen, are devoting their energies to the task of excelling as velocipedists. A writer who exhibits a decided enthusiasm in advocating the merits of the two-wheeled velocipede sums up its good "points" in the following manner:

It costs but little to purchase, and still less to keep. It does not, like one Zedechias, mentioned by an old historian, eat cart-loads of hay, with carts, horses and drivers as a relish, just to amuse Louis de Debonnaire, or any other sovereign. It does not, like Jeshurun, wax fat and kick. It is easy to handle, and cannot stand alone, but is independent only with a burden on its back. It never "rares up." It won't bite. It needs no check-rein or halter, or any other unnatural restraint. It is light and little; let alone, it will lean lovingly against the nearest support. It never flies off at a tangent unless badly managed, and under no circumstances will it shy at anything. It is not ludicrous like the young mule, nor does it, like the Morgan colt, cut up in a ridiculously corybantic manner, nor does it in other ways disgrace the memory of its inventor. In its movements it is all grace. Its one gait is so uniform and easy, and beautiful to look at, and simple to analyze, that it would be a shame to speak of a trot in the same breath. When its driver driveth furiously, even as did Jehu, the son of Nimsi, then there may be danger to him who obstructs the way and will not make room for the flying steed. But otherwise, not. So, let us hope that at no time shall a just growl go up against the bicycle or the tricycle, on account of damage done to man or man's chattels.

THE New York *Sun* asserts that one of the tyoungest members of the Rocky Mountain Press Club, by way of preserving the tradition of rapid traveling which belongs to that association, has been cultivating the velocipede for a few weeks past. Though he has not gained the speed accomplished by the Club in their memorable excursion beyond the watershed o the continent, he has succeeded in making a mile in three minutes and forty seconds, and that under rather unfavorable circumstances. There seems to be no difficulity in making twenty miles an hour on a clever velocipede with a smooth course, but on a rough road the speed would be very poor indeed.

The "Woman Question" in Switzerland.

Dr. J. G. Holland, (Timothy Titcomb,) in a letter from Switzerland, published in the Springfield *Republican*, on Monday, gives the following statement of the condition of the laboring women of that country:

Here the "woman question" exhibits a very different phase from that which it presents in the United States. In most departments of labor in Switzerland, no difference whatever is made between women and men, except that men get more for a day's work done than women. The women are everywhere. They are in shops, the vineyards, the potato fields. They are the sextons of churches. They sell mainly the products of farms and gardens, in the market place; they gather up the droppings of the streets, and often, I am assured, tend the hod. They are partners in business with their husbands. The hotels Gibbon and Richmont in Lausanne, are kept by "Ritterband, and Rossel"—Ritter being the name of the husband, and Rossel that of the wife—the landlord and landlady. A celebrated pension school is kept here by "M. Olivier de Speyr"—the two names representing those of the husband and wife respectively. Woman has here all the variety of pursuit she can desire. I have not heard of her preaching or practicing law or medicine, but I really do not see what should hinder, if she desires it.

Well, what is the effect of this introduction of woman into all the work and business of men? Simply, the universal degradation of men and women, too. When I look around me here, and see men working for a franc a day, simply because women can be procured to do his work for half a franc, it strikes me that, as a man, I have some interest in the settlement of this question concerning woman's labor in America. The whole laboring population of Switzerland are in the hands of the capitalist, simply because the service of men and women is interchangeable.

Let the women of Switzerland be subtracted to-day from the laboring force of the country, in those fields never invaded by women in America and the number of laborers is reduced to a point where labor can have a word to say as to what shall be its price. Let woman's labor be subtracted from those fields and the wages of men would be trebled at once, the laboring class would receive a third more for the work done than it receives now, and the women, ceasing to be beasts of burden, would gradually make human homes of those hovels and chalets which are now the indiscriminate shelters of chickens and children—of creatures who have few differences greater than that which is apparent in the number of their legs.

The laboring classes have gained nothing and lost everything, by putting, indiscriminately, into every field of labor, the labor of their women. They have lost an untold amount of money by it. They have lost all their power by it. They cannot lift a finger toward obtaining an advance of wages. Labor is so plenty, and has such immediate needs, that it must take just what is offered it, and it can get no more. If the legislation of Switzerland could, and would, pass a law shutting women out of those fields of employment always and alone occupied by men in America, it would do more for increasing the power and prosperity of the working classes of Switzerland, and for the elevation of the women who are now only drudges and slaves of physical toil, than they could possibly do by any other act.

It is proved here, beyond a question, that the practical obliteration of what we know in America as "woman's sphere" is the practical obliteration of the power of both man and woman to fix the price of their own labor. When only men do men's work, then they can have a word to say as to what shall be their compensation. Then they can combine. Then their labor commands money, because it cannot be replaced by that which is cheaper. If a strike among a certain class of laborers in Springfield should occur, and the places of the strikers could at once be filled by laborers from Hartford, they would of course be without power. The same would be the result if the laboring power of Springfield should be doubled. The price of labor will go down always and everywhere with the increased supply, and the greater the supply the more entirely is the advantage in the hands of the buyer.

If there were not a natural sphere of labor for woman, it would be her true policy to establish one arbitrarily. By having a sphere and holding to it, she increases her power to protect herself, and man's power to protect both himself and her. So soon as she makes her labor interchangeable with that of man, she reduces herself and the man with whom she is associated to helpless instruments of him who employs them. I belive this proposition is not only demonstrable, but is thoroughly demonstrated, not only in Switzerland, but in nearly all of continental Europe.

The American laboring man, no matter what department of labor may engage him, is ten times the man that the Swiss laborer is. The Swiss works slowly, lazily, inefficiently. I have never seen a Switzer here, at work for wages, who could not do, under sufficient motives, twice the work he was doing, and twice what he was expected, by his employer, to do. There is no need of woman here in those fields of industry usually assigned in America to men. The men of Switzerland can do the outdoor work of Switzerland, and ought to do it. It is the occupation of their fields of labor by women that has sent so many of them into the armies of other nations, and made the "Swiss mercenary" a reproach and a by-word. It is the cheapening of their labor by women that has made them the helpless, hopeless tools of their employers. As man fares, so fares woman. Though their spheres may be distinct, their lot is indivisible.

A REPORTER of one of the New York papers by following to their den has established the fact that an apparently miserable man sitting on Broadway with a placard, "I am Blind," and a no less miserable woman, also apparently blind, soliciting pennies, are imposters. Everybody who has gone through Broadway, has seen them or their like. The reporter in question, followed the old woman to her den, and he relates what followed as follows:

"The reporter entered boldly, and found himself in a low, ill lighted room, filled with a nice selection from the habitues of the neighborhood. Judge, then, of his astonishment on seeing at the further end of the room his "sore eyed friend from under the windows of the Southern Hotel; his eyes looking marvellously well, evidently cured by the action of a basin of cold water and a piece of yellow soap, with a glass of the "crather" steaming by his side, and discussing something out of the five o'clock edition of the *Daily News*, with no less a person than the "drunken sailor." "What luck the day, Biddy?" inquired "sore eyes." "Purty good, purty good, eh! Mike," responded the poor victim of brutality, as she knowingly leered at the "drunken sailor;" and then they all three laughed heartily, the little Dutch landlord, who was evidently up to the "job," joining in. Thinking discretion the better part of valor, our reporter paid for his lager and walked out, deeming it imprudent to open out in such a place."

Importation of English Railroad Iron.

From official reports it appears that the amount of railroad iron exported from England during the month of September, 1866, was 7,169 tons, shipped to the United States; in the same month, 1867, 12,333 tons; and during last September, 20,638 tons. The same table also shows the amount imported for the nine months ending September, for the same years. In 1866 there were 70,465 tons; in 1867, 137,884 tons; in 1868, 209,368 tons. This increase is rather surprising, when the duty on railroad iron is taken into consideration. Seventy cents on every one hundred pounds of iron must be paid in customs, and forty-five per cent. of the invoiced value of all steel rails.

Major General O. O. Howard at the University.

Major General Howard spent yesterday in our city. Being the guest of President Woods, he made his headquarters at the University, where Dr. Woods's room was thronged by some of the most prominent of our citizens, paying their respects to valor and worth. General Howard delivered one of his energetically earnest and deeply suggestive addresses to the students of the University, giving them some passages from his own history, illustrative of the superintending providence of God, and of our duty to recognize it in the whole conduct of life. The central thought of the address, God has a plan in each man's life, a plan which it is man's highest interest to discover and accomplish, was illuminated with an eloquence that burned as well as glowed. The only fault the students found with it, so far as we have heard it criticised, was its brevity. During the day the General visited, also, Avery College, Allegheny. In the evening he addressed a large audience in the Wylie street Colored Methodist Church. Altogether, we hope that the General's conscience was not severely wrenched by a sense of time wasted in sinful idleness when he retired last night. He leaves for Washington to-day.

THE MEADVILLE COURT HOUSE.—R. Lyle White, Esq., editor of the Meadville *Republican*, was in the city yesterday. He gave us a small photograph of the new Court House recently erected in that beautiful city, from which we judge the new structure to be handsome and imposing. The building has a front of one hundred and fifty-three feet, is eighty-four feet deep in the center, and the wings are sixty-five feet in depth. It is admirably adapted for the purpose intended, having ample court rooms, jury rooms and offices for the county officers.

THE LECTURE TO-NIGHT.—George Alfred Townsend will deliver his lecture on "The Pennsylvania Dutch," at the Academy of Music, this evening, under the auspices of the Lecture Committee of the Young Men's Mercantile Library Association. Mr. Townsend has heretofore lectured to large audiences in this city, and this evening should be no exception to the rule.

INCENDIARY FIRE.—Some incendiary set fire to a lot of kindling wood in the cellar under the second hand clothing store of A. B. Lloyd, No. 168 Fourth avenue, shortly before two o'clock this morning. With the exception of a slight burning of the steps leading to the cellar no damage was done, and the flames were extinguished with a few buckets of water. An alarm was sounded from Box 25, corner of Third avenue and Grant street.

SACRAMENT OF CONFIRMATION.—The Sacrament of Confirmation was administered by Bishop Domence on Sunday in St. Paul's Cathedral to several hundred children.

RIVER PACKETS.

ST. LOUIS.

Pittsburgh and St. Louis Packet Line.

BOATS LEAVE EVERY WEDNESDAY and SATURDAY of each week. The Line is to be under the direction and control of Captains John L. Rhodes, Wm. Dean, Emmet McClure and James Rees. The object is, to obtain regularity of time in departing, together with a uniform tariff of rates on freight, from Pittsburgh to St. Louis and all intermediate points. The following Captains and their boats have agreed to enter into and compose said line:

Steamer Leonidas	Capt. Edward Evans.
Steamer Silver Cloud No. 2	Capt. J. S. Conway.
Steamer Kate Putnam	Capt. Geo. W. Reed.
Steamer Wawasset	Capt. Thos. Shuman.
Steamer Glendale	Capt. John M. Hare.
Steamer Lorena	Captain Samuel Shuman.
Steamer Ingomar	Capt. John T. Durrah.
Steamer Maggie Hays	Capt. S. C. Martin.
Steamer Armenia	Capt. A. C. McCallum.
Steamer Messenger	Capt. Jesse Dean.

It is understood that the day of departure shall be fixed by the agents on the part of said boats, the hour not later than sundown. And that the time of arrival at all points or landings between Pittsburgh and St. Louis shall be settled upon as will best serve the patrons of the line, to give dispatch to business and regularity, which we think will be of great advantage to our business men and the general travel on our rivers. Besides save much expense to our boats, while loading under the line regulations in three days instead of six or eight, as under the old rule of loading three or four boats at one time. If our object should be properly appreciated, we will endeavor to make the line work to the advantage of all concerned. Through receipts will be given to all points where connections can be made with other good lines. We most earnestly solicit the assistance of our business community.

Very truly yours,
JOHN L. RHODES,
WILLIAM DEAN,
EMMITT McCLURE,
JAMES REES,
Managers.

... day. Connor was arrested by officer McKnight and held for a hearing to-morrow, but Connelly has not yet been apprehended.

ALLEGED FRAUD.

John Gordon, boarding-house keeper, lodged a complaint against James McCreery for fraud. Mr. Gordon alleges that McCreery was indebted to him in the sum of seven dollars for boarding, and that he left his trunk in possession of deponent as security for the payment of the debt. He subsequently called on Mr. Gordon, and procured the trunk by representing that he was going to pawn the clothes which were in it, and that he would pay deponent his debt out of the proceeds. The debt yet remains unpaid, and the deponent verily believes that the defendant is about leaving the State for the purpose of defrauding him. The accused is not yet in custody.

Mr. Gordon also lodged a similar charge against John Ninehouser. The latter, it is alleged, is indebted to Mr. Gordon in the sum of fifteen dollars for boarding, and that he has removed his baggage and is about leaving the county without paying the bill. He was arrested by officer McKnight and committed to jail for a hearing on Friday.

[Before Alderman Taylor.]

SNOWBALLING.

John Shea lodged an information for assault and battery yesterday against a boy named Robert Gibbons. The prosecutor states that on Saturday, while emptying a load of coal on Penn street, the boy Gibbons struck him on the head with a snowball. A warrant was issued for the arrest of young Gibbons. Mr. Shea says that he would not have made information against the boy had not the lad's mother sued him for committing an assault and battery on the boy after he was struck by the snowball.

[Before Justice Arent, of Allegheny.]

ALLEGED FRAUD.

Justice Arent, of the Seventh ward, Allegheny, yesterday committed Jacob Thed to jail to await trial on a charge of fraud, made by Jacob Wander, on the 28th of August last.

[Before Alderman Donaldson.]

BREACH OF PROMISE.

A case of a serious character was before Alderman Donaldson yesterday, a young man quite well known in business circles here, being charged with having seduced the daughter of a well-known resident of one of the lower wards. It appears that in April last the young man went to the house of the gentleman named to board. The young man's brother had married the eldest daughter of the gentleman mentioned, and in consequence the new boarder was put on the familiar footing of a member of the family. The second and only unmarried daughter of the family, was a delicate young girl of about eighteen years, who had been in society but very little, and had received but little company. To her the young man in question immediately commenced to show very devoted attentions, escorting her to concerts, operas, etc., and becoming rapidly very intimate with her. At length he proposed marriage to the girl and was accepted. Very soon thereafter, taking advantage of his new position, he effected her ruin. Time passed and still, on one excuse and another, he deferred the marriage he had promised should take place immediately. Recently, concealment being longer impossible, she told her story to her parents. The young man in the meantime had left his boarding place. He was sent for by the father, and renewed his promises of speedy marriage. Still he delayed, making new promises from time to time, until, on Saturday, the father being convinced that he had no intention of doing the girl the only justice possible, made information before Alderman Donaldson, charging the young man with seduction. The accused was arrested and after a hearing was held in seven thousand dollars bail for trial. There is also talk of the young lady's father suing the young man for damages.

Public Amusements.

OPERA HOUSE.—Chanfrau, in his new character of "Joe," made quite a hit last evening, a large and appreciative audience heartily applauding Joseph's eccentricities. As a companion piece to "Sam," "Joe" is very acceptable. In the character of "Jerry Clip," Chanfrau gave his clever imitations of Forrest, Booth, Kean, Barney Williams and other noted actors. The same plays will be performed this evening.

THEATER.—This house was reopened last evening, when Kate Fisher appeared as "Mazeppa." As we did not witness the performance we cannot speak of the ... [illegible]

VARIETIES.—Miss Maud St. James had a cordial welcome last evening. She is a pleasing singer and will become popular.

Positive Sale of Valuable School House Property.

On to-morrow (Wednesday), November 25th, at 2½ o'clock P. M., on the premises, will be sold without reserve that valuable property known as the old Seventh Ward School House, situated on Duncan street (extension of Wylie). The lot has three fronts, on which is erected the School House building. For business purposes the property is very desirable, and we would invite the special attention of capitalists and business men to this sale. Call on H. B. Smithson & Co., auctioneers.

Splendid Horse for Sale.

Well broken to saddle and harness, a very fast walker, tasty in harness, and racks under the saddle, rising five years old, and warranted sound in every particular, at Dr. Keyser's No. 120 Penn street.

Specific No. Seven Cures COUGHS, COLDS, BRONCHITIS, SORE THROATS.

These are so common, and so frequently lay the foundation of incurable disease, that a curative for them is required in every family. Almost every case of consumption began with a slight or common cold, and for quite a period might easily have been cured by these simple Cough Pills.

Common Colds require only the Cough Pills, taken three or four times per day. But if there is pain in the breast or sides, soreness of the throat, or hoarseness or feverishness, it is better to take the Fever Pills alternately with them. In all cases where a cough or cold does not get well at once with the Cough Pills alone, the use of the Fever Pills with them will promptly cure.

Chronic Cough of some standing, with danger of falling into consumption requires the Cough and Fever Pills with good diet and daily use of stimulus, and this treatment has cured hundreds of cases.

Bronchitis, with sore throat, cough, hoarseness or fever, is cured by the Fever Pills and Croup Pills alternately. Scores of cases are thus cured and are promptly benefitted.

Hoarseness promptly yields to No. One and No. Seven.

Clergymen or Public Speakers, after using the voice, are at once relieved of the irritation, dryness and "huskiness," by taking the Cough or Fever Pills, and the throat and voice are thus preserved. Many clergymen thus use them, with the greatest satisfaction.

The Influenza requires only the Cough and Fever Pills for a prompt cure. But, in severe cases, the Catarrh Pills may act more decidedly, especially if there is flowing catarrh, sore nose and general prostration.

These remedies by the case or single box, are sent to any part of the country by Mail or Express, free of charge, on receipt of the price. Address Humphrey's Specific Homeopathic Medicine Co., Office and Depot, 562 Broadway, New York.

UNITED STATES MARSHAL'S SALE.

UNITED STATES OF AMERICA, Eastern District of Missouri. SS.

In the District Court of said United States in and for said District.

In case No. 1,497, of WILLIAM H. BROWN, et al., Libellants, against the Steamboat GREAT REPUBLIC, her Engines, Machinery, Tackle, Apparel and Furniture.

Whereas, by virtue of a writ and order of venditioni exponas, issued from the office of the Clerk of the United States District Court for the Eastern District of Missouri, dated the third day of November, 1868, I am directed, as Marshal of the United States for the Eastern District of Missouri, to expose for sale the said Steamboat GREAT REPUBLIC, with her Engines, Machinery, Tackle, Apparel and Furniture, on twenty days' public notice of the time, place and terms of sale, given by advertisement in one or more newspapers published in the City of St. Louis, Mo., and also one public newspaper published in the City of Cincinnati, State of Ohio, and one public newspaper published in the City of Pittsburgh, State of Pennsylvania.

Now, therefore, in obedience to said order of the District Court for the Eastern District of Missouri, dated as aforesaid, I hereby give public notice that I will, on FRIDAY, THE (27) TWENTY-SEVENTH DAY OF NOVEMBER, 1868, at the hour of 12 o'clock M. of said day, at Public Sale and by Public Auction, sell to the highest bidder, the Steamboat GREAT REPUBLIC, with her Engines, Machinery, Tackle, Apparel and Furniture, on the following terms, to-wit: Terms, one-half of the purchase money in cash, and the remaining one-half in six months, with interest on the deferred payments at the rate of six per cent. per annum, until paid; said deferred payments to be secured by a stipulation to pay the same at maturity; and said stipulation to be executed by the purchaser, with two or more securities of undoubted responsibility, and residents in this District; and to contain a clause by which the stipulators submit themselves to the jurisdiction of the aforesaid District Court for the Eastern District of Missouri, and consent that in case of default or contumacy, in the payment of the note to be given for such deferred payment at maturity, execution for the amount of said stipulation may issue out of the aforesaid Court, against their goods and chattels, lands and tenements.

The sale will therefore take place on FRIDAY, THE 27TH DAY OF NOVEMBER, 1868, at the CITY OF CARONDELET, in the County of St. Louis, Missouri.

U. S. MARSHALL, Eastern District of Missouri.

St. Louis, Mo., November 6, 1868.

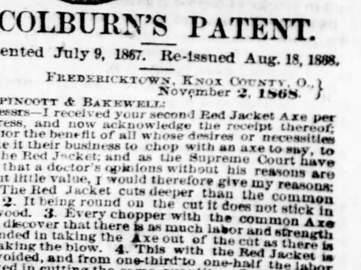
RED JACKET AXES,



COLBURN'S PATENT.

Patented July 9, 1867. Re-issued Aug. 18, 1868.

FREDERICKTOWN, KNOX COUNTY, O., November 2, 1868.

LIPPINCOTT & BAKEWELL:

Messrs—I received your second Red Jacket Axe per express, and now acknowledge the receipt thereof, and for the benefit of all whose desires or necessities make it their business to chop with an axe to say, to try the Red Jacket; and as the Supreme Court have held that a doctor's opinions without his reasons are of but little value, I would therefore give my reasons: 1. The Red Jacket cuts deeper than the common bit. 2. It being round on the cut it does not stick in the wood. 3. Every chopper with the common Axe must discover that there is as much labor and strength expended in taking the Axe out of the cut as there is in making the blow. 4. This with the Red Jacket is all avoided, and from one-third to one-half the labor is saved in cutting the same quantity. 5. By putting in the same labor that is necessary with a common Axe, you can easily make at least thirty-three per cent. more wood in same time.

You are safe in letting any honest man try your Red Jacket on these tests, and if it fails refund him his money. Respectfully yours, HARRY BALDWIN.

For sale by all reponsible Hardware Dealers in the United States.

LIPPINCOTT & BAKEWELL, PITTSBURGH, PA., Sole owners of COLBURN'S and RED JACKET Patent.
